Performance with
Competitive Fuel Efficiency

Initial reactions- Verano Media Drive.

"Every 6 months or so we drive a car that exceeds our expectations. Such is the case with the all new 2012 Buick Verano"

"The Verano's long list of standard features and upscale cabin make other compacts in this bracket look cheap and overvalued, and it's tranquil cabin will appeal to anyone who has driven noisy cars costing many thousands more"

Where the Verano comes into its own is the quietness of the ride - it outstrips Lexus in this regard...this is quietest car I have ever driven"

"The Verano's sweeping electronic suite, including standard OnStar technology with crash response, will do its best to tempt younger buyers while Buick's comprehensive warranty with free courtesy transportation serves to sweeten the deal"

"Verano is nothing like Cruze"
